

# THE TANNERY DISTRICT

**D**owntown Kitchener is undergoing a rapid and invigorating period of growth. The warehouse district plays a key role in accommodating the rejuvenation of the area. The former Lang Tannery, bounded by Victoria, Charles, Francis and Oak Streets, is strategically located between the new health sciences campus of the University of Waterloo and the commercial core of the city. It forms an integral part of the downtown city fabric and is central to this emerging area. Cadan's vision for the property includes a redevelopment which will add much needed office, retail, service, and other commercial uses. They had a launch recently at the property and shared their exciting ideas. This is definitely going to be an exciting transformation! [www.thetannery.ca](http://www.thetannery.ca) for information & leasing opportunities!
